

Introducing...

"The TENTO-KUN"

A new solar-powered LED street light from Tottori Electronic CO., Ltd

The TENTO-KUN's advantages:

(1) It is not influenced by power failure:

Lighting for a maximum of 10 hours is possible with its internal battery.

(2) The TENTO-KUN can be installed anywhere:

Since it is lightweight(1.5kg, 3.3lbs) and wiring work is unnecessary, anyone can install the TENTO-KUN street light easily.

(3) All-in-one:

The TENTO-KUN's design combines the solar panel, LED lights, internal battery and mounting bracket together so that it is both low-profile and easy to install.

Specification List

Product Name	Solar-powered LED street light "TENTO-KUN"
Product Code	SL219901
Solar Cell	Spherical silicon solar cell (0.75 [W] X 8) <u>Made in Japan</u>
Battery	Ni-MH 1900 [mA] (AA) X 4
LED	Power LED X 2
Color Temp.	6000 [K]
Total Luminous Flux	110 [LM]
Illuminance	(3m directly under) 35 [LX], (5m directly under) 13 [LX]
Consumption Current	(LED ON) 220 [mA], (LED OFF) 10 [mA]
Material	(Case) PC, ASA (Bracket) SUS
Dimension	(W)573 X (D)128 X (H)80 [mm] protruding parts not included
Weight	(Case) 1,350 [g] (Bracket) 200 [g]
Waterproof	Rainproof Type
Accessories	Ni-MH Battery, Bracket
Lighting Time	(Max) 10 hours (ATTENTION: There is no sunshine guarantee!)

Instructions and directions for use:

- (1) Please install in a place where solar light can be obtained well directly.
- (2) When the daylight hours are short, the duration of the lighting time becomes short as well.
